

**IRANIAN ROLL<sup>®</sup>**

Supplying Raw Materials  
for Flexible Packaging & Printing Industry

**– We Make It Easy –**

## Our History

Iranian Roll has its roots in 1959 as a manufacturer of flexible packaging, launching in 2015 as an independent trading company supplying raw materials for flexible packaging such as Aluminum foils, papers and boards.

We are cooperating as a sales representative of some Europeans and East Asian companies to supply packaging raw materials to Iran market. Since 2015 our Commercial department extended its services and established a trade firm from where it gives services into not only corporations who are active in the same industry in Iran but also all the world.
